I realize that New River Utility Company is in business to make a profit and as a business owner I agree with making a profit but I think a 80% increase is too much at one time, if I asked to increase my fees by 80% my clients would laugh me out of the room and take their business somewhere else. Unfortunately, we do not have another water company to go to if our rates are increased. Please consider this when deciding on their rate increase application.
